

THE MIRACLE QUICK START CARD

SETTING UP

Place The Miracle keyboard comfortably near your PC. Then plug the male end of The Miracle Cable into The Miracle Port (on the keyboard back) and the opposite end into a Serial Port (on the PC back). Plug the power supply into **The Miracle** and an electrical outlet. You can also plug in the foot pedal and the earphones if you wish to use them.

INSTALLING THE MIRACLE

The Miracle practically installs itself. First, make sure both **The Miracle** and the PC are turned on. Insert The Miracle disk 1 into your PC's floppy drive (such as **A:**) and change to that drive (type **A:** and press **Enter**). Then type **Install** and press **Enter**. Just follow the onscreen instructions and you're done!

RUNNING THE MIRACLE

You only have to install The Miracle software once. After that, you can run the program with two easy DOS commands. First, change to The Miracle directory (for example, type **CD\MIRACLE** and press **Enter**). Then type **MIRACLE**, and press **Enter**. You can listen to the introductory music or press any key to go to the sign-on screen. Follow the instructions there and you will begin your first lesson immediately.

MENUS

The Miracle has six easy-to-use menus.

- **Administration** - Use this to add and delete users, change your system setup, check your progress, print awards, and return to DOS.
- **Classroom** - Use this to go to a Chapter or restart a Lesson. This is the heart of **The Miracle**.
- **Practice Room** - Practice pitch, rhythm, or any song in **The Miracle**.
- **Arcade** - Play the *Jukebox* and arcade-style games.
- **Studio** - Record and play back your own performances.
- **Performance Hall** - Play with *The Miracle Orchestra*!

MOUSE VS. PC KEYBOARD COMMANDS

To do this	Mouse	PC Key
Select a menu or option	Click	Tab
Go to next Lesson screen	Click	Spacebar
Confirm a selection	Click OK or Double click	Enter

For detailed instructions, see *Using the PC Software in the PC User's Guide*.
